Invitation

The FuelSOME Project dissemination workshop and training day

Focusing on Multifuel SOFC Technologies for the Maritime Sector

Wednesday 7th October 2026, Kongsberg, Norway, and online in Teams

The day consists of three separate events, where you are welcome to participate in all or just one. The event is hybrid, Teams link for online participants will be sent after registration, few days prior to the event. The physical event will take place in the city of Kongsberg, Norway, in the "Bergseminaret" building (Kirketorget 3). Registration is open till Friday 2nd October 2026.

1. Scientific Workshop: *Presenting the results of the FuelSOME project and relevance of the SOFC technology in maritime sector* (arranged by Elcogen)
2. Interactive training of the Multi-Fuel Pathway Explorer (MFPE) tool (arranged by AEE INTEC)
3. Industrial Workshop: *Post project opportunities & business planning* (arranged by AVL)

DETAILED AGENDA AND REGISTRATION LINKS TO THE EVENTS:

09:00-9:30 **Arrival and Welcome Coffee**

09:30-11:30 **Scientific Workshop: *Presenting the results of the FuelSOME project and relevance of SOFC technology in maritime sector***

- 9:30-9:45 Introduction to the FuelSOME Project – Jasmin Kniewallner, Project Coordinator, AVL
- 9:45-10:15 Industry Keynotes
  - *Kongsberg – Stian Sveberg, Lead Marine Development Engineer, Green Fuel Systems, Kongsberg Maritime*
  - *Elcogen – Dr. Antonio Alfano, R&D Manager, Stack Development, Elcogen*
- 10:15-11:00 Construction, testing and validation of SOFC systems with multifuel compatibility: Results and lessons learned – Antonio Alfano, Elcogen, Peter Sztrinko, AVL and Werneri Huhtinen, VTT
- 11:00-11:30 Introduction to the Multi-Fuel Pathway Explorer (MFPE) tool – Jasmin Pfleger, AEE INTEC

Registration link to the Scientific Workshop – or, scan the QR code:

11:30-12:30 **Interactive Training of the Multi-Fuel Pathway Explorer (MFPE) tool – Jasmin Pfleger, AEE INTEC** (for those registered to this event, installation guide of the tool provided in advance)

Registration link to the Interactive Training – or, scan the QR code:

12:30-14:00 **Lunch break**

14:00-16:30 **Industrial Workshop: *Post-project opportunities & business planning***

- Introduction to the FuelSOME Project (Jasmin Kniewallner, Project Coordinator, AVL)
- Post-project opportunities, exploitation & business planning (tbd)
  - Analysing past, present and future industry trends
  - Identifying strategic and tactical responses
  - Developing a detailed SWOT analysis
  - Preparing the foundation for a feasibility assessment/business plan

Registration link to the Industrial Workshop – or, scan the QR code:

16:30-17:00 **Networking Coffee**

17:00 **Closure of the Day**

FuelSOME

Home - FuelSOME

The FuelSOME project focuses on establishing the technological feasibility of a flexible, scalable, and multi-fuel capable energy generation system based on Solid Oxide Fuel Cells (SOFC) technology specially catered for long-distance maritime shipping. During this combined workshop and training day, the project results and insights from the SOFC systems are discussed, while the interactive part provides the possibility for a deep-dive into the Multi-Fuel Pathway Explorer tool for modelling, simulating, and designing multi-fuel pathways.

KONGSBERG

Advisory Board Member:
Ketil Olaf Paulsen
ketil.olaf.paulsen@km.kongsberg.com

AVL

Project Coordinator:
Jasmin Kniewallner
jasmin.kniewallner@avl.com

elcogen

Project Partner:
Minna Toivola
minna.toivola@elcogen.com

AEE INTEC

Project Partner:
Jasmin Pfleger
j.pfleger@aee.at
